

Curriculum Vitae

Name: **István Fodor**
Address: Tűzoltó u. 13. Budapest, 1094
Mobile: +36 70 3100 495
E-mail: fpisti76@gmail.com
Linkedin: <http://www.linkedin.com/in/fodorpisti>
Others: 39 years / male / married
Nationality: Hungarian

I am a versatile system administrator, having a wide range of experience of more than 15 years in several OSS systems, from design and planning phase through installation and commissioning to acceptance testing and support activities. I am keen to work with new technologies, and I am searching for the next step in my carrier towards a system designer / architect.

Technical skills:

- Telecommunication systems: GSM, GPRS, UMTS, LTE, TETRA
- OSS/NMS/EMS systems: Nokia NetAct, Traffica, Global Reporter, Node Manager, Ciena Preside, HP OVO, Temp, TNMS, Radio Commander, Net Manager
- Operating systems admin skills: Windows, HP-UX, Sun Solaris, several linux variants (Ubuntu, RedHat, CentOS)
- Programming: Shell scripts, PL/SQL scripts, Perl, bash, ksh, awk, sed
- Databases: Oracle, MySQL, Sybase, LDAP
- Virtualization: Citrix, XenApp, VMWare, VirtualBox, Wine, cloud technologies
- Networking: TCP/IP, VLAN, STP, OSI/CLNS, SNMP, DNS, apache, Tomcat, sendmail, samba, NFS, NIS, SSH
- Nokia proprietary protocols: Q1, Q3, NWI3, NX2S, NE3S
- Hardware: HP DL and blade systems, SAN systems, HP EVA, EMC, Sun servers, Fujitsu servers, Cisco devices, Nokia DX 200, ATCA
- Highly available, disaster tolerant systems, backup systems
- RHCS, GFS, LVM, Nagios, Wiki variants, Subversion, LAMP servers
- FCAPS, eTOM, ITIL principles
- Teaching, mentoring, maintain system documentation

Positions, projects, keywords:

- 2016: 3 months+ at Nokia France as Solution Engineer
Network element integrations
System upgrades
Troubleshooting
- 2015: 1 year at Nokia UK as OSS engineer
System administration
Network element integrations
Support activities for various projects
Upgrade support
- 2013-2014: 1+ year at ALNS / ZTE as System Engineer
LTE, NetAct, Global Reporter, system administration
Performance management systems, measurements, KPIs
Linux, SQL, perl, scripting, E2E dataflow
- 2012-2013: 1 year at Huawei as OSS / IT engineer, NEMS Transport team
LCM, planning, Ciena Preside, TNMS, Net Manager
System administration, windows, linux, unix, solaris server administration
Databases, SQL, Nagios, HW + OS + application maintenance
- 2012: 3 months at ALNS as OSS support engineer
System administration, E2E dataflow, KPIs
Global reporter, databases, SQL, backups
- 2011: 3 months at Challenge Networks as NetAct installation and commissioning engineer
Design, planning, HLD & LLD, NE integration, testing, training
- 2011: 4 months as Project Engineer
Gb over IP interface, BSC - SGSN
Solution design, planning, datafill, implementation
- 2009-2010: 2 years at EADS as NetAct Expert
System administration, disaster recovery planning, testing
Designing network element connections, implementation, testing
TETRA, troubleshooting, training
- 2007-2008: 2 years at Nokia / NSN as OSS engineer
Customer facing, system administration, training
3G, NetAct, fault report handling, troubleshooting
Linux, unix, databases, SQL, networking
- 1999-2006: 6 years at Vodafone as OSS administrator
NOC, 2G, GPRS, DX200, alarm handling, script development, troubleshooting
System administration, linux, unix, databases, NetAct
Operate and maintain OSS systems

I have attended several courses and trainings during my early carrier and I keep my knowledge updated in many areas from networking to databases and software development.

I am an easygoing person, who can adapt to different environments, weather being well regulated or left open for new ideas. I can work as an individual contributor but I find my place in a team as well.

You can find my more detailed CV at www.istvanfodor.eu
